TekMark Australia appoints VMS as the Tektronix Authorized Service Provider in Australia

TekMark is pleased to announce a co-operative relationship with VMS as the Authorized Service Provider (ASP) for Tektronix in Australia. The announcement follows the recent appointment of TekMark Australia Pty Ltd as the Authorised Australian Distributor for Tektronix Instrumentation Products. The selection of VMS as a Tektronix ASP acknowledges the company's high levels of competency and commitment..

VMS, founded in 1990, is Australia's leading calibration and repair laboratory with sites in Sydney, Brisbane and other key locations. Their laboratories are NATA accredited, with an ISO quality management system that ensures traceability and quality of measurement for all the work carried out.

As a global leader in service solutions, TekMark ensures that instruments operate with the highest degree of accuracy and efficiency. VMS will help TekMark fulfil its promise by providing:

- Superior technical expertise;
- Proprietary calibrations software to ensure factory specifications are always met;
- Efficient and convenient no hassle service;
- Flexible repair, calibration and service options;
- Proactive services including update firmware, install application, reliability and safety updates, and minor repairs as necessary; and
- The support of a \$25M logistics operation to ensure the right parts are at the right place at the right time, with a local inventory to support high volume products.

Hun Lim, Marketing Director, said that the company's focus has always been about helping customers optimise their business operations and business performance while driving down the cost of ownership.

About Tekmark Australia

The recently founded TekMark Australia Pty Ltd is a member of the TekMark group of companies, which is headquartered in Malaysia. Since its inception in 1994, the TekMark Group has grown to be a reputable corporate entity in technology business. The Company is a distributor of advanced test, measurement and monitoring products to leading telecommunications, broadcast, wireless, semiconductor, electronics manufacturing, higher education and government enterprises. Its subsidiaries and affiliated companies are located in Singapore, Thailand and NOW also in Australia. In 2004, TekMark was the first corporate trading company in Malaysia, and the ASEAN region, to be certified to the ISO 9001:2000 international standards and in compliance with the stringent German quality requirements of TUV. TekMark's excellent track record in supporting the Tektronix range was recognised when it received the highest distributor status of Platinum Distributor. Information about TekMark Australia can be found at www.tekmark.net.au.
